PRICING OF SCHOOL GIRLS PACKS

Our recommendation for school girl donations is a **minimum of 6 pads, 3 per day**, to allow a girl to wash her pads at night and have enough for the next day. With fewer pads, a girl may end up using unhygienic alternatives whilst waiting for her pads from the previous day to dry.

We also suggest including two pairs of panties per girl. Firm fitting panties are important to ensure that the pad does not slip around, many girls are wearing old, stretched panties and this will not provide adequate protection.

A Flo Kit is a great way to ensure that a girl has everything she will need to start using their Palesa Pads immediately. She will be unlikely to find a spare bucket lying around at home to use and may resort to using the household cleaning bucket which is not hygienic. **The cleaning products are a nice touch so that she has her own private supply in her kit.**

COST SAVINGS

Although the initial spend may seem high, there is a **massive saving over 5 years!** Disposable pads cost between R 20 and R 40 per month. With reusable pads you can **help many more girls with the same budget**, not to mention all the **environmental benefits** of not having piles and piles of disposable pads creating landfill.

Another **challenge with disposable pads is the continuous distribution** that is required, Palesa Reusable Sanitary Pads are a once off donation for up to 5 years, so while you may help fewer girls than anticipated initially, you will be able to visit new schools each month according to your budget and make a lasting impact each time.

With the cost savings, more girls can be helped than if a disposable pad program were to be initiated.

We offer discounts for bulk orders. Contact us to find out more!

It may seem that your budget is too small to buy these kits but consider that it is a **once off donation for 5 years**, so rather help a smaller group of girls at a time with a sustainable solution.

Each time you can help more girls and join the **CLOTH PAD REVOLUTION** in Africa!

If each donor commits to supporting 100 girls a month, we can have a tremendous impact in a short time frame.

If you are a sponsor, please consider a monthly donation, perhaps what you would have spent disposable sanitary pads. If you are an NGO, please point out to your sponsor that we do have monthly donation plans available as well.
